

## **ABSTRACT**

A free-standing designer leather/textile toilet tissue holder in cylindrical shape that is tailored from leather or textile and is capable of housing up to six (6) rolls of toilet tissue stacking vertically. The protective cover is conveniently hinged to the top of the toilet tissue holder to avoid simultaneously holding the cover while removing or replenishing toilet tissue. A transparent window on the cover makes viewing and identifying the contents of the holder easy by looking through the cover of the holder. A pocket on the rear of the toilet tissue holder stores air freshener or natural herbs to neutralize odours. Pegs at the base elevate the holder from the floor. It also provides a decorative, practical, hygienic and an elegant way of keeping extra bathroom tissue near by. The holder's numerous designs co-ordinate with matching towels, bath mats and other bathroom accessories.
